

Your kind of coffee.

From Fully Automatic
Coffee Machines to
Accessories

NIVONA

Range 2026/2027

Exclusively at authorized specialist retailers.

Good coffee doesn't start in the cup. It starts with technology that simply works: intuitive operation, easy cleaning, and service that stays reachable even after purchase. That's what NIVONA stands for: fully automatic coffee machines that bring enjoyment and everyday life together — with aroma technology, a removable brewing unit, and well thought-out care programs. Made in Europe.

NIVONA has been producing fully automatic coffee machines for more than 20 years. Some things have never changed: the focus on individual coffee enjoyment. The simple operation. Sales through specialist retailers. The location in the heart of Franconia.

At the same time, a lot has happened: the team has grown with numerous specialists and coffee experts. And NIVONA sets trends — like the CUBE 4', LattePreSelect in the 9000 series, or Nitro coffee at the push of a button in the new 8000 series.

Today, NIVONA sells well over 100,000 fully automatic coffee machines every year and, backed by numerous awards, ranks among the best-known and most popular brands on the German market. And increasingly across Europe and worldwide: NIVONA machines are now available in more than 30 countries.

Despite all this success, staying down-to-earth and approachable matters to us. The likeable alternative, simply put.

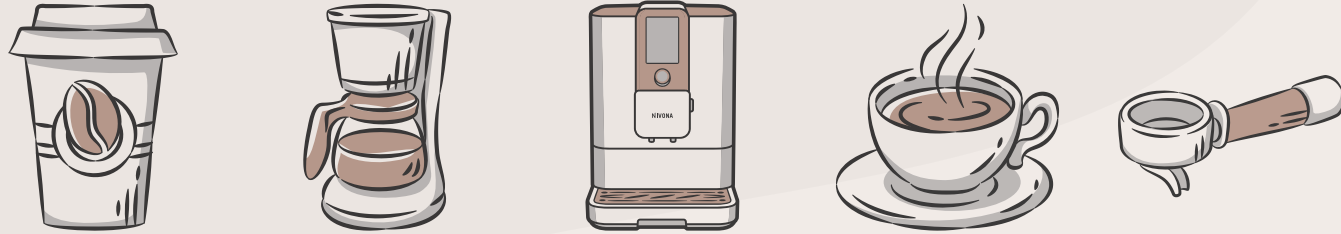

Easy to use Because good coffee should be simple.	Easy to clean Removable brewing unit, care programs, and clear processes.	Built to last Repairability, spare parts availability, and service are all part of the NIVONA promise.	Innovative on the inside For aroma, milk foam, and coffee variety at the push of a button.
---	---	--	--

Made for good coffee. And for many years to come.

Every bean has more to offer than meets the eye. With the Aroma Balance System, you bring out different flavor nuances in your coffee – simply by choosing the right aroma profile.

In short

The Aroma Balance System changes the brewing process. Depending on the profile, water, temperature, and ground coffee come together differently. The result: noticeably different aromas from the same beans.

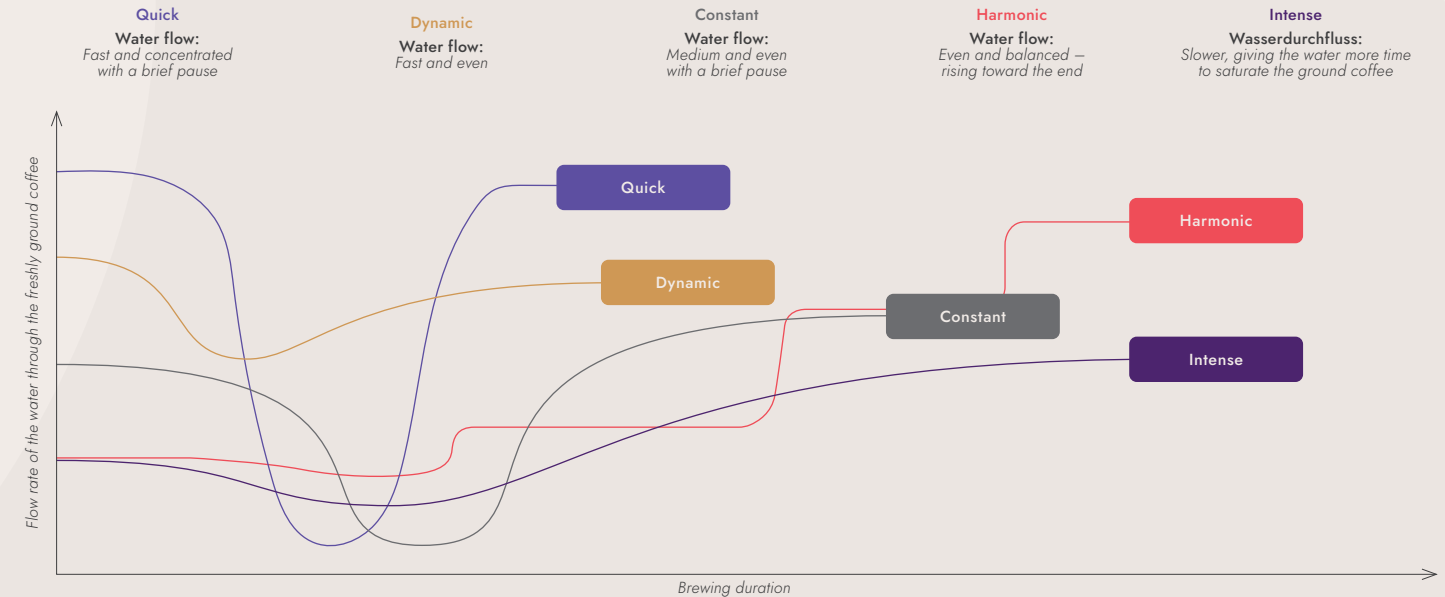

Depending on the model, up to five aroma profiles are available to you. Here's how they taste:

Quick „Coffee To Go” <i>for quick, clean-tasting coffee</i>	Dynamic „Grandma's filter coffee” <i>lively and aromatic</i>	Constant „Classic fully automatic” <i>classic and familiar</i>	Harmonic „Balanced” <i>especially harmonious</i>	Intense „Bella Italia” <i>bold, dense, Italian</i>
--	---	--	---	---

Your coffee. Your taste. Your profile.

This is what the Aroma Balance System brings out of our Espresso Milano, for example:

Sometimes bolder. Sometimes smoother. Sometimes especially balanced. You choose how your coffee is brewed. All from the same bean.

It's worth trying: an espresso can taste mild and smooth with one profile, bold and intense with another.
Not better or worse. Just different. And that's exactly the point.

One turn. One tap. A different coffee.

CUBE 4'102

CUBE 4'106

Click Cup

No capsules. No pods.

Compact dimensions

Automatic tamping

Easy to use

Fresh beans

Click Click Coffee

The CUBE 4'

is the modern way to make coffee: freshly ground, easily brewed, and pleasantly compact. No capsules. No pods. No large machine.

With the Click Cup, dosing, grinding, and brewing your coffee couldn't be easier. Afterward, the used grounds are disposed of with a simple turn. Done.

Always freshly ground.

Capsules and pods aren't necessary when coffee can be freshly made from whole beans instead. The CUBE brings genuine coffee enjoyment to a compact format — for anyone who likes things uncomplicated but won't cut corners on taste.

More bean. Less waste.

brewing unit

Made
in Europe

Your entry into your favorite coffee.

The 5 Series

makes your entry into the world of NIVONA fully automatic coffee machines pleasantly simple. Coffee and espresso are ready at the push of a button — even for two cups at once.

The TFT color display lets you operate your NIVONA clearly and intuitively. And when it's time for a cappuccino, the Spumatore Mano Solo takes care of the milk foam.

The 6 Series

is made for you if you love cappuccino and like things simple. The Spumatore Mano SoloPlus sits right in the spout. No moving cups, no rethinking your routine.

On top of that, the Aroma Balance System brings three profiles, so your coffee tastes exactly the way you like it.

Made in Europe

For anyone who simply wants to enjoy a good cappuccino.

The 7 Series

is the NIVONA all-rounder for every day: comfortable to operate, versatile with coffee and milk foam, and easy to maintain. With cappuccino and latte macchiato at the push of a button.

With the Aroma Balance System, OneTouch convenience, and a removable brewing unit, it brings together exactly what matters in everyday life: great taste, straightforward operation, and a good feeling when cleaning.

Proven. Comfortable. Simply NIVONA.

Whether espresso, coffee, cappuccino, or latte macchiato: the 7 Series makes your favorite drinks quick to reach and pleasantly simple to enjoy. For anyone looking for a proven NIVONA — with strong features, familiar operation, and coffee that fits every day.

Plenty of comfort. Without any fuss.

Advanced NIVONA technology. Beautifully compact.

The 7000 Series

brings NIVONA's advanced technology into a compact format: a new, more scratch-resistant matte touch display, a new design, and NIVONA's most advanced brewing unit.

Easy to use. Easy to clean. And the most affordable entry yet into the technology of the RomaticaPlus brewing unit.

For espresso in the morning, cappuccino in the afternoon, and every coffee moment in between.

Touch. Taste. Cup.

If you love good coffee, you shouldn't have to fight your way through menus. The 7000 Series brings the most important settings clearly to the point — and your favorite drinks quickly into the cup.

More comfort. Less effort.

Refreshingly cool coffee
with Chilled Brew

Made
in Europe

Today's future. Tomorrow's favorite coffee.

The 8000 Series

stands for modern coffee enjoyment with plenty of comfort: intuitive operation, easy maintenance, and coffee variety at the push of a button.

Whether espresso, coffee, cappuccino, or latte macchiato: the 8000 Series turns good beans into exactly the moment you need right now.

And now, alongside Chilled Brew, every model in the 8000 Series also brings Nitro coffee — a particularly smooth, cool coffee experience in the cup.

*Nitro coffee at the push of a button.

Cold. Creamy. Unexpectedly smooth. The little wow moment from your NIVONA — with Chilled Brew in every model and Nitro as the new highlight. A coffee that doesn't just taste different — it feels like a small moment of happiness in a glass. Coffee variety that truly stands out.

The Smooth Side Of Coffee
